Namaadh Noor Programme

Teaching children to pray — and building the habit for life

A two-part programme for children aged 7–12

Submitted in response to Addu City Council Announcement 07/2026

1. Executive Summary

Ikram proposes to deliver the **Namaadh Noor** programme for children aged 7–12 at Masjidul Ikram, Addu City. Our offering has two complementary components: a **10-day intensive teaching programme** that equips each child to perform the prayer correctly and with understanding, and a separate **40-day congregational-prayer challenge** that turns that learning into a lasting daily habit through tracked attendance in jamā‘ah and tiered recognition.

Although Ikram itself is a recently established organisation, the programme is led by highly experienced Imams and qualified Qur‘an and Arabic teachers — whose profiles are attached — and Ikram has already organised and managed community religious programmes across multiple mosques.

2. Understanding of the Programme

We understand that the Council’s objective is not simply to teach children the mechanics of prayer, but to instil *khushū‘* (presence and devotion) and to build prayer as a permanent habit in their lives. Teaching alone does not achieve this; consistency does.

For this reason our design treats the **40-day congregational challenge as the heart of the programme** — the 10-day teaching block exists to prepare children for it, and the recognition structure is deliberately built to reward those who pray most consistently.

3. Programme Structure — Two Components

Component 1 — 10-Day Teaching Programme

A structured 10-day teaching block delivered at Masjidul Ikram, following the Council’s five prescribed components:

1. **Foundations** — purity (tahārah), ablution (wudhu), and intention (niyyah), taught practically and hands-on.
2. **Performing the prayer** — correct postures, movements, and recitation, learned through guided repetition.
3. **Meaning and khushū‘** — age-appropriate understanding of what is being recited and done, so the prayer is performed with the heart, not by rote.
4. **Completing the prayer** — the closing of the prayer and the adhkār that follow.
5. **Sustaining (dhiruvun)** — building the understanding and motivation to maintain the prayer for life, which leads directly into Component 2.

Sessions blend short teaching segments, practical demonstration, and reinforcement, delivered in a warm and encouraging manner suited to children.

Component 2 — 40-Day Congregational-Prayer Challenge

A separate 40-day initiative in which participating children attend the daily congregational prayers at Masjidul Ikram. Attendance is recorded for each child every day, and achievement is recognised in three tiers based on the number of days prayed in congregation:

Tier	Days in congregation (out of 40)	Recognition	Prize (MVR)
Tier 1	15 – 24 days	Certificate of participation	500
Tier 2	25 – 34 days	Certificate of merit	1,000
Tier 3	35 – 40 days	Highest honour + top prize	1,500

One cash prize is awarded per tier — to the participant with the highest attendance in that band — and the challenge concludes with a certificate-and-prize ceremony. Families are engaged throughout to support and encourage their children's daily attendance.

4. Target Group

Each programme cycle enrolls **20 boys and 20 girls — 40 children in total**, aged 7–12. This comfortably exceeds the Council's stated minimum of 15 children. Recruitment is carried out through the mosque community and families connected to Ikram.

5. Facilitation Team

The programme is delivered by **two lead facilitators — one for the boys' group and one for the girls' group** — ensuring appropriate gender-separated instruction. Both leads are supported by **trained Ikram volunteers** who assist with supervision, attendance tracking, and the smooth running of sessions.

6. Schedule

- **Teaching programme:** 10 days per cycle.
- **Congregational challenge:** 40 days, run as a distinct phase.
- **Cadence:** one programme cycle delivered once every two months (approximately 6 cycles per year).

7. Monitoring, Reporting and Evaluation

- **A daily attendance log** is maintained for every child across the congregational challenge.
- **A baseline assessment** at the start and an **end-of-programme assessment** measure each child's progress in performing the prayer correctly.
- **A written completion report** is submitted to the Council at the end of each cycle, in line with the Council's required reporting policy.

8. Child Safeguarding

A basic child-safeguarding protocol applies to all facilitators, volunteers, and sessions, ensuring a safe environment for every participating child throughout both components of the programme.

9. Experience and Capacity

Multi-site programme management. During the most recent Ramadan, Ikram organised I'tikaf across **two mosques** simultaneously:

- **Masjidul Ikram** — 30 participants, approximately MVR 30,000.
- **Masjid Baqiyathus Salihath** — 10 participants, approximately MVR 10,000.

This represents the successful management of approximately **40 participants and MVR 40,000 across two sites** in a single programme.

An experienced team. Although Ikram is a recently established organisation, the programme is delivered by highly experienced individuals. Its lead facilitators include a qualified Imam (Bachelor's level) with ten years leading congregational prayer and six years teaching the Qur'an and Arabic to children, and a senior Imam with twenty-five years of imamah and three decades of teaching experience. Full facilitator profiles are attached to this proposal.

Volunteer support. Supporting volunteers who assist the facilitators are drawn from the mosque community and from teachers already engaged in Qur'an instruction.

Local presence. Ikram is based at and operates from Masjidul Ikram, the proposed venue, with community ties that support recruitment and family engagement.

10. Budget

Total programme cost: MVR 19,500 per cycle, split between the Council and Ikram as follows:

#	Item / service	Total (MVR)	Council share	Ikram share
1	Facilitators (2 × 2,500)	5,000	5,000	—
2	Child allocation (40 × 25 × 10 days)	10,000	7,000	3,000
3	Certificates & tiered prizes (40)	3,500	1,500	2,000
4	Printing, tracking sheets, coordination	1,000	500	500
	Programme total	19,500	14,000	5,500

Ikram in-kind contribution, notional values:

Item	Notional value (MVR)
Volunteer assistant facilitators	3,000
Administration & coordination	500
Total in-kind	3,500

Summary of contributions

Contributor	Cash (MVR)	In-kind (MVR)	Total (MVR)
Addu City Council	14,000	—	14,000
Ikram	5,500	3,500	9,000
Total	19,500	3,500	23,000

The programme's billable cost is MVR 19,500, met entirely in cash (Council MVR 14,000 + Ikram MVR 5,500). Ikram additionally provides MVR 3,500 of in-kind support (notional value), bringing Ikram's total contribution to MVR 9,000 and reflecting a strong community commitment to the programme.

11. Conclusion

Ikram has the proven experience, the established local presence at Masjidul Ikram, and a clear two-part method — ***teach correctly, then build the habit*** — to deliver Namaadh Noor effectively and to sustain its impact well beyond the programme window. We look forward to partnering with the Addu City Council on this initiative.
